## THE MOST HOLY BODY AND BLOOD OF CHRIST

We celebrate the yearly Liturgical Feast of Corpus Christi this weekend. A sacred, spiritual gift from God that allows God to work within us. There are so many different ways that natural foods work within our bodies. Too much of one type of food can cause negative results in our bodies. Too much sugar can cause a rush of energy. Too much ice cream can cause “brain freeze.” Too many carbs can damage our bodies in many different ways. The Eucharist will affect our spiritual lives “if” we allow God to work within us. Our all powerful and humble God allows us to share in His Life. It is His desire and will that simple bread and wine are transformed from natural food to spiritual food. God is “simple.” We as humans are “Complex.” We recognize God’s continual call to us His children to share in His life. It is only by our recognition that “we need God” to truly take advantage of the sacredness of the eucharist. God desires us to approach Him and ask to be “transformed” by His body and blood. To humble ourselves before God means that we can do nothing without His presence in our lives. “Do this in memory of Me,” is to “forgive.” To forgive myself first allows God to nourish me as He so desires. We become a part of the “sacredness” of God when we simplify our lives and recognize that we can be transformed if we allow the eucharist to remind us that we are forgiven when we forgive others. Let the eucharist remind us daily of God’s presence within us by transforming our lives and the lives of others by forgiving. Be simple, as God is simple, then we are transformed when we place ourselves in God’s sacred hands. Let God do the work within us.
